Application No. 10/534,947 Paper Dated: March 19, 2008

In Reply to USPTO Correspondence of December 19, 2008

Attorney Docket No. 4623-051371

AMENDMENTS TO THE SPECIFICATION

Please replace the paragraph beginning at page 6, line 15 of the specification with the following amended paragraph:

--Figures 6A to 9C illustrate 4 alternative embodiments, each represented by a front view, a side view, and a cross-sectional view as in Figures 5A to 5C[[.]]; and--

Please insert the following new paragraphs before page 6, line 18 of the specification:

--Figure 10a is a perspective view of an attachment section of the connector according to another embodiment of the present invention;

Figures 10b and 10c are perspective and side views of an attachment section of the connector according to yet another embodiment of the present invention; and

Figure 11 is a schematic illustration of a pressing station for the assembly of an I-beam.--

Please insert the following new paragraphs before page 9, line 33 of the specification:

--<u>Figure 10a is a perspective view of an attachment section 10 of a connector having spikes 13 projecting from one side of the attachment section 10. The spikes 13 are twisted about a longitudinal axis of the spikes 13.</u>

Figures 10b and 10c are perspective and side views of an alternative attachment section 10 of a connector having spikes 13 projecting from opposite sides of the attachment section 10. As can be seen, the spikes 13 are also twisted about a longitudinal axis of the spikes 13.--
